

Santa Clara Valley Water District

# Neighborhood work

# Expect Intermittent Trail Delays

## What:

Trail delays can be expected when equipment is on the path. The Santa Clara Valley Water District will be performing sediment removal and stream gage station maintenance work.

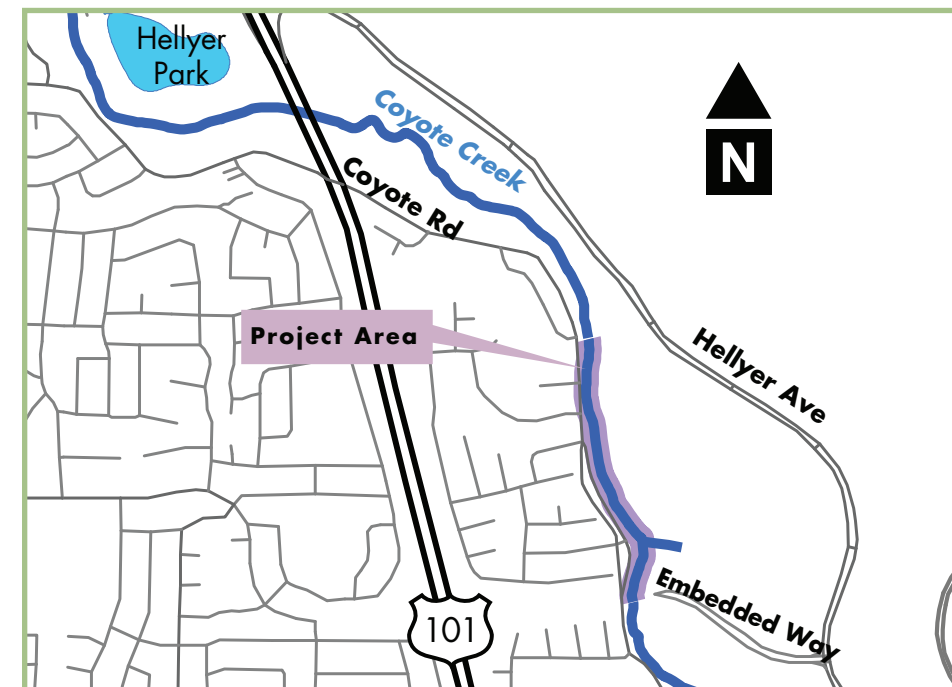

## When:

Early Sept. through mid-October 2010.

## Where:

Coyote Creek from Hellyer Ave. to Embedded Way.

*Lavender highlight indicates project area.*

## Why:

This stream gage helps to provide early flood warning for downtown San Jose. This work will also improve water quality and the creek habitat by removing and improving vegetation, removing non-natives and restoring the natural channel.
